The Nailteq Experience

I created Nailteq as a result of my experience in the nail industry while living in Romania. Not long after qualifying at the Christine Valmy International School of Cosmetics in Bucharest, I realised that there was a need for the personal and individualised attention that only a private nail session with a professional nail technician and nail artist can provide; and only once they have been given a thorough grounding in all aspects of nail care systems and technology.

My belief that spectacular nails begin with the right foundation means that Nailteq has an unwavering philosophy of caring for the look and feel of your nails - which is why Nailteq-trained technicians will always offer advice on how to maintain one's nails for a healthy, long lasting and beautiful appearance!

Your nails and their safety are of utmost importance to us, so we teach and observe strict hygiene practices in our workshops and classes.

Gorgeous, perfectly painted nails can express your mood, match your outfit and reflect your personality - especially now that there are so many amazing new products, colours and designs to choose from.

I am proud to introduce to the SA market Nailteq's advanced signature range of nail care products - Système - with a comprehensive range of gels, acrylics, nail art paints, tools and accessories. Our Gels and Acrylics are formulated and manufactured specifically for Nailteq in Germany and the USA, where we have access to the top R&D labs in the industry.

In this way Nailteq makes sure that your clients' nails are maintained in a professional manner with first-class products and nail care techniques.

Welcome to The Nailteq Experience!

Emi Tudoran

Director

The *Système* Product Philosophy

The Système product range is underpinned by the most modern Research & Development laboratories and production facilities available in the industry today. We provide 'best in class' product formulations backed by rigorous quality management procedures certified to Cosmetic GMP ISO22716 and to ISO 9001:2008.

Likewise our brushes, files, tools and ancillary products are chosen from amongst the finest available internationally - to complement our first-class nail gels and nail acrylics.

Our product philosophy is to develop and present products that reflect the following attributes:

Innovative - our products and services should change perceptions about nail care amongst nail & beauty professionals and the public alike.

Simple - we provide a range of products that are fit-for-purpose, that are durable and low maintenance, and that are safe and hygienic for regular use.

Necessary - our courses and workshops provide essential continuing professional development to professionals in the nail care industry; to upgrade skills and services via training programs in line with relevant vocational qualifications.

Effective - we design product range structures and services that are appropriate, easy-to-use, tested according to internationally recognised protocols, and that provide affordable added-value.

GLACIER CLEAR BUILDER GEL

Builder or Brush-On

- medium viscosity
- no noticeable heat
- non-lifting
- unique flexibility suits all kinds of natural nails
- tip technique / shape technique
- may be used over French
- · can be pinched
- non-yellowing
- strengthens natural nail
- refill
- LED, UV & CCFL curing
- no filing after polymerisation (with good nail preparation)

BONDER & PRIMER

BondKote GK10010
Promotes adhesion to natural nails.
Prevents lifting where acrylics and gels are used.
Air drying. Acid free.

UV Base Gel GK20015

Highly adhesive gel to be used as base gel for artificial nail extensions and natural nail extensions.

Acid free. Curing time: 2 minutes

BUILDER GELS

GB10015

Builder Gel MV

Glacier Clear Builder Gel without noticeable heat. This Medium Viscosity gel can be used as brush on gel as well as builder gel. In combination with UV Base Gel this gel achieves a high adhesion to the natural nail. Where there is good preparation of the natural nail, no file work is needed after polymerisation. Due to its unique flexibility, this gel can be used for all kinds of natural nails, Gel can be pinched.

Quartz Rosé Resistant Builder Gel. High Viscosity.

Acid Free. Does not flow into nail edges - with the result that less file correction is required. UV cured.

Builder Gel CAMO Peach

GB40005

Camouflage gel; flexible, self-levelling with high covering power.

Air Drying. Acid Free. UV cured.

Builder Gel CAMO Natural

GB30005

Camouflage gel; suitable for optical extension of the nail bed. Non-lifting. High covering power when applied thinly. Colour stable. UV cured.

FRENCH GEL

French Gel Medium White

GW10005

UV medium white gel for the French manicure. Milky coverage; medium white colouration. Can be used for full cover; suitable for shape technique.
UV cured.

FINISH GELS

Finish Gel QF DuraGloss

Scratch-resistant. No tacky residue. High gloss, odourless. Free of EMA/HEMA.

For use over all acrylic and gel systems.

UV - 2 min. | LED - 1 min.

SGEL

advanced nall

FINISH GEL QF

DuraGloss

Finish Gel DuraMatte GF20015 Medium viscosity. Tacky residue. Matt finish. UV cured.

COLOUR GELS

FX Gel Metalix

GXxx005

Brilliant metallic colours. Even fleck sizes. Durable finish. See latest colour charts for xx.

FarbeGel TrendMatt

GMxx005

Trendy matt look. Brilliant colour intensity. No sealing required. See latest colour charts for xx.

FX Gel Pearl Ice

GIXX005

Pale, subtle colour intensity. Durable finish. Medium viscosity. See latest colour charts for xx.

FarbeGel PureGloss

GGxx005

Brilliant colour intensity. Long lasting high gloss. Medium viscosity. See latest colour charts for xx.

BONDER

BondKote GK10010 Adhesion Promoter - promotes adhesion to natural nails. Prevents lifting where acrylics and gels are used – air drying. Acid free.

MONOCRYL - Acrylic Liquids

Odourless Clear 50ml AM10050 | 100ml AM10100 Odourless Monomer with a lower odour and longer curing time compared to traditional acrylic monomers - enables strong and durable finished nails. The residual tacky layer after cure minimizes the amount of dust while filing.

No-Lift Monomer 50ml AM20050 | 100ml AM20100 No-Lift Monomer is a blended EMA monomer system formulated for clients who have acrylic lifting problems. Artificial nails applied with No-Lift are long lasting and have a superior bond to the nail plate.

Craft Monomer
Standard Craft Monomer
with a medium set. Ideal for
novice technicians.
50ml AM40050
100ml AM40100

Pro-Set Monomer 50ml AM30050 | 100ml AM30100 Pro-Set Monomer is a quality, technically advanced blended EMA monomer formulated for increased adhesion in acrylic applications. UV inhibitors are added for increased colour stability and plasticizers are added for durability. For advanced technicians.

POLYCRYL-Acrylic Modelling Powders

Polypure Powders 15gm - APxx015 | 30gm - APxx030 Polypure is a polymer powder that has good adhesion, absoloute clarity and flexibility. Available in Clear-10, White-20, Natural-30 and Pink-40.

COLOURTREND - Polycryl Colours & Effects

Acryleur Colour Powders

ARxx005

Finacryl Pastel Powders

AFxx005

Chic. Bold. En Vogue!
Acryleurtm colour polymers are highly pigmented, strong and durable - will provide long-lasting colour for various application needs.
See latest colour charts for xx.

Soft. Feminine. Classic!
Finacryltm pastel shades polymers are lighter shades and hues, but still highly pigmented, strong and durable. See latest colour charts for xx.

GLITTACRYL Glitter Powders

AGxx005

GLITTACRYL Glitter Powders

METAL FX

AXxx005

GlittAcryltm polymers are the finest colour modelling powders in competition-quality. Stable and resilient, with glitter effects for various application needs., including nail art effects. See latest colour charts for xx.

GlittAcryl^{Im} with Metal FX - glitter acrylic powders, in brilliant and vivid shades of various metal tones. Stable, resilient and easy to use. See latest colour charts for xx.

Artisan's Brushes & Files

BRUSHES

- all professional brushes
 for acrylic sculpting
 for gel modelling
 for the finest nail art

- purest Siberian Kolinsky brushespremium synthetic brushes

FILES

- quality abrasive compounds
- eco-friendly
- allergy-testedergonomically designedmade in the EU

CONTINUING PROFESSIONAL DEVELOPMENT

What is Continuing Professional Development?

If you believe that your reputation as a professional nail technician is not only important to you, but is just as important to your clients, your colleagues and your employer, then you probably realise the need for on-going training of some kind.

Keeping your knowledge, your expertise and your skills up-to-date is essential for maintaining your excellent reputation as a nail professional.

Nailteq has recognised the necessity of creating a standard and formalised way for nail professionals to keep themselves up-to-date with the latest trends and techniques in the nail care industry. Our courses are designed to add value to already-qualified nail technicians, and already-qualified beauticians who wish to discover more about nails and nail care.

This is called Continuing Professional Development (CPD).

Nailteq deliver a wide range of engaging CPD workshops and courses that can be offered in your salon or spa. More 'central' training locations can also be arranged when necessary.

CPD workshops and courses can be customised to suit your own special needs. Read on to find out how Nailteq can work with you, to provide theoretical training and practical skills necessary for professionals in the nail care industry today.

CPD WORKSHOPS

Basic Nail Art Workshop

CPDW101

Learn the basics of freehand nail art and the correct use of nail art tools and accessories. This course is great for the novice nail technician who wishes to learn a new skill. Basic manicure skills are an essential requirement before doing this workshop.

3D Nail Art Workshop

CPDW103

Discover how to make 3D nail art techniques your own. Learn some of the 'tips and tricks' used by international nail artists. This workshop is essential for accomplished and experienced nail technicians and nail artists.

Advanced Nail Art Workshop

CPDW102

Once you've learnt, practiced and applied the basics from the above workshop, take this advanced class with higher skill sets. This workshop is great for the more experienced nail technician who has developed a steady hand with good brush

techniques.

Alternative Nail Architecture Workshop CPDW301

This workshop is generally 'customised' to suit the needs and experience of those who are attending; and focuses on using one's existing skillset and experience to create ungiue and architectural nail spectacular art designs.

Products and Training - A Note

Nailteq workshops and courses are developed in conjunction with international industry bodies. Our training is conducted independent of any particular brand names or specific manufacturer's product, i.e. using generic industry terms and product descriptions. Nailtea does not provide any 'product' for use during training. Our training fees do include study materials.

We believe that you should bring your own products from your salon or spa, that you use every day, products that you may want to get to use in a more skilled or efficient manner. If this is not possible for you to do, then Nailteq has access to a professional range of artisan-grade products that you will be

able to purchase for your training, and later if you wish.

Gel Art Workshop

CPDW201

The latest trend in the world of nail art, Gel Nail Art and Design is an essential skill for the practising nail artist and

CPD COURSES

Manicure & Pedicure Service

CPDC101

Many beauty courses squeeze manicure and pedicure training into short sessions, missing critical theoretical and practical elements that are so essential for one to become an accomplished nail technician. Upgrade your manicure and pedicure services, aftercare and skill sets. Improve your theoretical knowledge base. Focus on health and hygiene for

nail technicians and learn how to avoid contamination. skills can increase

Find out how better practical your customer retention.

CPDC201

Improve your basic nail care or mani/pedi vocational skills and training with this all-round Gel CPD course that not only includes the basics of working with Gels, but also advanced instruction beyond basic

skills.

Nail Art Service CPDC301

For accomplished and experienced nail technicians who now want to involve themselves in the wonderful world of nail art - this CPD course combines our nail art workshops into one comprehensive learning experience.

Acrylic Overlay & Nail Enhancement

CPDC202

Improve your basic nail care or mani/pedi vocational skills and training with this all-round Acrylic CPD course that not only includes the basics of working with Acrylic Monomers and Polymers, but also all the advanced instruction you will

acrylic work.

WHO WE ARE & WHAT WE DO

Farbetek International (Pty) Ltd - please call us Farbetek - is a small business that understands small businesses. But with many years of business experience in major industrial and manufacturing environments, we understand the bigger business operation as well.

We are a small group of writers, publishers, artists, graphic designers and forward-thinking entrepreneurs; a team that has a diverse background, with essential skills developed in the paint and coatings industry, the oil and gas sector, the food services and hospitality industry, gardening and landscaping, law and legal services, nail and beauty services, as well as in fine arts and graphic design, and, very importantly, in small business entrepreneurship.

We have worked, and continue to work, in Southern Africa, the Middle East, and Europe. We understand cultural, cross-cultural and multi-cultural idiosyncrasies. So there is a good chance we may even understand you - more so than you think! And, because we are small, you know we will pay attention to you and your creative and business needs!

We offer a unique range of services and products - unique in that they are offered in one place from one company - which reflects our skill, our talent and our diversity; services and products which allow us to offer the best solutions possible to our clients.

Farbetek has four divisions:

Nailteq - advanced nail care technology - products and training for qualified nail technicians

Farbetek Media - corporate identity and graphic design studio

Baroza Trading - import and export, speciality trading with no restrictions

Farbetek Press - for book publishing in most genres, including technical and corporate publications.

TERMS & CONDITIONS

Product range, names and descriptions are correct as at the time of printing. We reserve the right to change or alter the aforesaid as necessary from time to time, and to add or withdraw products as market conditions, supply and demand change.
