The Nailteq Experience

I created Nailteq as a result of my experience in the nail industry while living in Romania. Not long after qualifying at the Christine Valmy International School of Cosmetics in Bucharest, I realised that there was a need for the personal and individualised attention that only a private nail session with a professional nail technician and nail artist can provide; and only once they have been given a thorough grounding in all aspects of nail care systems and technology.

My belief that spectacular nails begin with the right foundation means that Nailteq has an unwavering philosophy of caring for the look and feel of your nails - which is why Nailteq-trained technicians will always offer advice on how to maintain one's nails for a healthy, long lasting and beautiful appearance!

Your nails and their safety are of utmost importance to us, so we teach and observe strict hygiene practices in our workshops and classes.

Gorgeous, perfectly painted nails can express your mood, match your outfit and reflect your personality - especially now that there are so many amazing new products, colours and designs to choose from.

I am proud to introduce to the SA market Nailteq's advanced signature range of nail care products - Système - with a comprehensive range of gels, acrylics, nail art paints, tools and accessories. Our Gels and Acrylics are formulated and manufactured specifically for Nailteq in Germany and the USA, where we have access to the top R&D labs in the industry.

In this way Nailteq makes sure that your clients' nails are maintained in a professional manner with first-class products and nail care techniques.

Welcome to The Nailteq Experience!

Emi Tudoran

Director

The *Système* Product Philosophy

The Système product range is underpinned by the most modern Research & Development laboratories and production facilities available in the industry today. We provide 'best in class' product formulations backed by rigorous quality management procedures certified to Cosmetic GMP ISO22716 and to ISO 9001:2008.

Likewise our brushes, files, tools and ancillary products are chosen from amongst the finest available internationally - to complement our first-class nail gels and nail acrylics.

Our product philosophy is to develop and present products that reflect the following attributes:

Innovative - our products and services should change perceptions about nail care amongst nail & beauty professionals and the public alike.

Simple - we provide a range of products that are fit-for-purpose, that are durable and low maintenance, and that are safe and hygienic for regular use.

Necessary - our courses and workshops provide essential continuing professional development to professionals in the nail care industry; to upgrade skills and services via training programs in line with relevant vocational qualifications.

Effective - we design product range structures and services that are appropriate, easy-to-use, tested according to internationally recognised protocols, and that provide affordable added-value.

GLACIER CLEAR BUILDER GEL

Builder or Brush-On

- medium viscosity
- no noticeable heat
- non-lifting
- unique flexibility suits all kinds of natural nails
- tip technique / shape technique
- may be used over French

PROFESSIONAL DEVELOPMENT

If you believe that your reputation as a professional nail technician is not only important to you, but is just as important to your clients, your colleagues and your employer, then you probably realise the need for on-going training of some kind.

Keeping your knowledge, your expertise and your skills up-to-date is essential for maintaining your excellent reputation as a nail professional.

Nailten has recognised the necessity of creating a standard and formalised way for nail professionals to keep themselves up-to-date with the latest trends and techniques in the nail care industry. Our courses are designed to add value to already-qualified nail technicians, and already-qualified beauticians who wish to discover more about nails and nail care.

Nailteq deliver a wide range of engaging workshops and courses that can be offered in your salon or spa. More 'central' training locations can also be arranged when necessary.

All our workshops and courses can be customised to suit your own special needs. Read on to find out how Nailteq can work with you, to provide theoretical training and practical skills necessary for professionals in the nail care industry today.

WORKSHOPS

W101

Basic Nail Art Workshop

Learn the basics of freehand nail art and the correct use of nail art tools and accessories. This course is great for the novice nail technician who wishes to learn a new skill. Basic manicure skills are an essential requirement before doing this workshop.

3D Nail Art Workshop

W103 Discover how to make 3D nail art techniques your own, Learn some of the 'tips and tricks' used by international nail artists. This workshop is essential for accomplished and experienced nail technicians and nail artists.

Advanced Nail Art Workshop

W102 Once you've learnt, practiced and applied the basics from the above workshop, take this advanced class with higher skill sets. This workshop is great for the more experienced nail technician who has developed a steady hand with good brush techniques.

Gel Art Workshop

W201 The latest trend in the world of nail art, Gel Nail Art and Design is an essential skill for the practising nail artist and technician.

Alternative Nail Architecture Workshop W301

This workshop is generally 'customised' to suit the needs and experience of those who are attending; and focuses on using one's existing skillset and experience to create ungive spectacular architectural nail art designs.

Products and Training - A Note Nailtea workshops and courses are developed in conjunction with international industry bodies, Our

training is conducted independent of any particular brand names or specific manufacturer's product. i.e. using generic industry terms and product descriptions. Our training fees include study materials and venue only. We believe that you should bring your own products from your salon or spa, that you use every day,

products that you may want to get to use in a more skilled or efficient manner. If this is not possible for you to do, then Nailtea has access to a professional range of artisan-grade products that you will be able to purchase for your training, and later if you wish.

COURSES

C101

Manicure & Pedicure Service

Many beauty courses squeeze manicure and pedicure training into short sessions, missing critical theoretical and practical elements that are so essential for one to become an accomplished nail technician. Upgrade your manicure and pedicure services, aftercare and skill sets, Improve your theoretical knowledge base. Focus on health and hygiene for nail technicians and learn how to

avoid contamination. Find out how better practical skills can increase vour customer retention.

Nail Art Service

For accomplished and experienced nail technicians who now want to involve themselves in the wonderful world of nail art - this CPD course combines our nail art workshops into one comprehensive learning experience.

Gel Overlay & Nail Enhancement

C201 Improve your basic nail care or mani/pedi vocational skills and training with this all-round Gel CPD course that not only includes the basics of working with Gels, but also advanced instruction beyond basic

application I skills.

Acrylic Overlay & Nail Enhancement

C202 Improve your basic nail care or mani/pedi vocational skills and training with this all-round Acrylic CPD course that not only includes the basics of working with Acrylic Monomers and Polymers, but also all the advanced instruction you will need for a solid grounding in

WHO WE ARE & WHAT WE DO

Farbetek International (Pty) Ltd - please call us Farbetek - is a small business that understands small businesses. But with many years of business experience in major industrial and manufacturing environments, we understand the bigger business operation as well.

We are a small group of writers, publishers, artists, graphic designers and forward-thinking entrepreneurs; a team that has a diverse background, with essential skills developed in the paint and coatings industry, the oil and gas sector, the food services and hospitality industry, gardening and landscapp, law and legal services, nail and beauty services, as well as in fine arts and graphic design, and, very importantly, in small business entrepreneurship.

We have worked, and continue to work, in Southern Africa, the Middle East, and Europe. We understand cultural, cross-cultural and multi-cultural idosyncrasies. So there is a good chance we may even understand you - more so than you think! And, because we are small, you know we will pay attention to you and your creative and business needs!

We offer a unique range of services and products - unique in that they are offered in one place from one company - which reflects our skill, our talent and our diversity; services and products which allow us to offer the best solutions possible to qure clients.

Farhetek has four divisions:

Nailteq - advanced nail care technology - products and training for qualified nail technicians

Farbetek Media - corporate identity and graphic design studio

Baroza Trading - import and export, speciality trading with no restrictions

Farbetek Press - for book publishing in most genres, including technical and corporate publications.
